

FEROBIDE John Deere Subsoiler Test

Paul Buhler, Mechanic
Shilo Farms, Brandon, MB, Canada

“We welded Ferobide to the point and wings of our John Deere nine leg inline ripper. Results are as follows:

Standard point at \$199	110	acres
Standard point + hard facing	220	acres
Standard point + FEROBIDE	1,100	acres

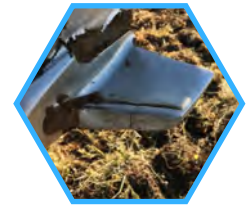

“We completed the ripping process 3 days sooner than usual thanks to savings in downtime, greatly helped by using Ferobide.”
